Question Difficulty

Very Tough : 4

Tough : 11

Average : 9

Easy : 1

The difficulty level of a question is calculated dynamically based on the performance of the students. Ex: The very tough questions are the ones that less than 20% of the students solved correctly.

Student Performance

Good : 16
 Average : 93
 Poor : 69
 Very Poor : 69

Student performance is calculated based on the marks that students obtained.

- > 90 : Excellent
- >70 to <= 90 : Good
- > 40 to <= 70 : Average
- > 20 to <= 40 : Poor
- 0-20 : Very Poor

Marks vs No. of Students

This graph shows where the majority of the students stand. The Peak of the graph signifies the marks that most of the test takers obtained. The arrow indicates where you stand.

Note : Your goal is to be as far to the right as possible, that is where all the toppers are.

Rank v/s Marks

This graph shows the marks distribution among the test takers. The leftmost point on the graph shows the topper's marks while the rightmost point belongs to the person who stood last. The arrow indicates where you stand.

Note: Your goal is to be as far to the left as possible.
