

Key: **HUH31107DIL**

Assessment Starts At : 2020-10-10 15:00:00

Please note/copy the above key and download any of the launchers available below for your operating system. Start the application and use this key for launching the assessment.

Note: You can download the iLEON app as either the 'zip' or 'exe' file. On downloading as 'zip', please unzip to extract and run the 'exe' file.

DOWNLOAD iLEON APP

[Windows\(.zip\)](#)

[Windows\(.exe\)](#)

[View Installation Guide](#)

**STEP
01**

Extract the downloaded file.

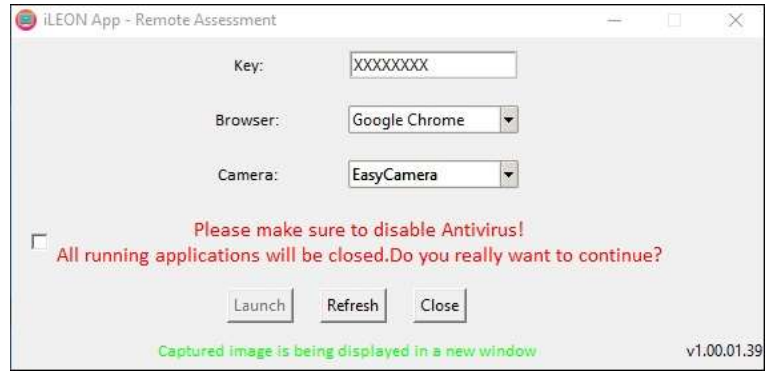

**STEP
02**

Double click on the extracted application.

**STEP
03**

Enter the key which is displayed in application download page.

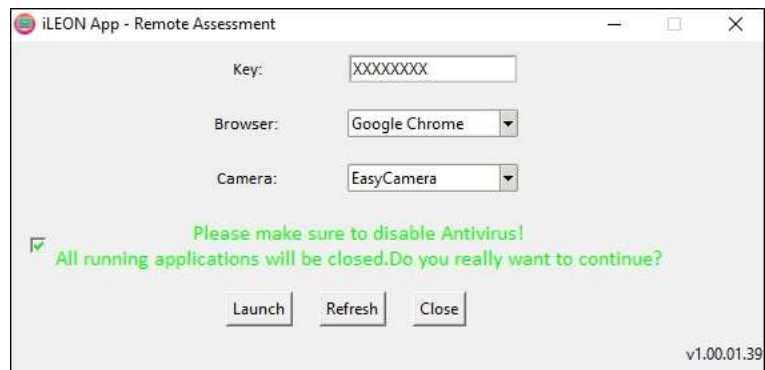

STEP 04

Select the browser from the list which you want to use for assessment.

STEP 05

Click on the check box, then the 'Launch' button will be enabled.

STEP 06

Click on the 'Launch' button to launch the assessment. Once you click on 'Launch', all the active applications and processes of the system will be closed and the assessment will be launched.

Important Notes / FAQs:

1. Can I use a mobile hotspot to take the Internet Based Assessment?

Using a mobile hotspot is not a preferred option to take the Internet Based Assessment.

2. What are the points to remember before I launch the Internet Based Assessment?

- Any antivirus running in your system should be first disabled. This is a mandatory step.
- Save all data before you launch the assessment.
- All unsaved data will be lost and cannot be recovered.
- For Proctored assessments, your system should be enabled with a camera. Wireless cameras are not permitted.

3. Do I have to download the launcher every time I take an assessment?

No, the launcher, once downloaded can be used for future assessments. It is not necessary to download the launcher every time. The system will upgrade the launcher, if any upgrade is available while launching.

4. What should I do once I complete the assessment?

Once you have completed the assessment, please close the assessment player using "Right Shift + Esc". Please press "Alt+F4", only if "Right Shift + Esc" does not work. Once the assessment player is closed, the launcher application will take some time to bring back your system for normal use. Do not perform any action till your system comes back to normal mode, otherwise it will freeze/hang.

5. What OS and Browsers are supported in the iLEON App?

1. Windows 10 - Google Chrome - All versions.
2. Windows 10 - Internet Explorer - All versions.
3. Windows 10 - Firefox - Not supported.
4. Windows 7 - Google Chrome - All versions.
5. Windows 7 - Internet Explorer - All versions.
6. Windows 7 - Firefox - Version 46 to 56.
7. Ubuntu - All versions.
8. MAC OS - Not supported.
